Moneybookers "za neupućene"

Moneybookers je jedan od sistema plaćanja preko Interneta tipa "e-novčanik" (e-wallet). Po načinu funkcionisanja je unekoliko sličan sistemima kao što su PayPal, Neteller, Instadebit, Click2Pay, myCitadel itd.

Usluge koje daje Moneybookers su organizacija elektronskog plaćanja u e-trgovini i elektronskih transfera novca.

Kod e-trgovine, kupac i trgovac otvaraju račun kod Moneybookersa i registruju mehanizme transfera novca na račun i sa računa – platne kartice, naloge za direktno zaduženje, bankarske račune za isplatu, itd. Onda kupac na trgovačkom sajtu bira Moneybookers kao metod plaćanja narudžbine i sa svoje stranice za plaćanje preko Moneybookersa (prethodno prenevši dovoljno novca na svoj račun otvoren kod Moneybookersa karticom ili nekim drugim metodom) potvrđuje plaćanje iznosa koji je trgovac dostavio Moneybookersu.

Isti račun fizičkog lica kod Moneybookersa može se koristiti i za transfere novca između dva računa otvorena kod Moneybookersa.

Osim prenosa sa Moneybookersovih računa i na njih platnim karticama i internacionalnim bankarskim transferima, Moneybookers ima, u preko 30 zemalja (između ostalog SAD, Britanija, Francuska, Nemačka, Australija, itd.), mogućnost uplate/isplate domaćim platnim karticama i lokalnim platnim instrumentima, kao i lokalnim bankarskim transferima, često bez provizije za uplatu (na žalost još ne u Srbiji). Više detalja za svoju zemlju možete naći na sledećoj lokaciji: http://www.moneybookers.com/app/help.pl?s=fees.

Zašto Moneybookers?

Ranije su objavljeni bankarski računi u banci Intesa za uplate za inostranstva. Uplata uz pomoć Moneybookersa bi trebalo da olakša uplate iz inostranstva i smanji bankarske troškove.

Razlog upotrebe Moneybookersovog sistema je omogućavanje uplate platnim karticama (Visa, Mastercard, American Express, Diners, JCB, kao i nacionalni sistemi debitnih kartica kao što su Switch i Solo u UK, Laser u Irskoj i slično) i minimizacija bankarskih troškova uplatioca, koji za međunarodne bankarske transfere mogu ponekad da iznose i do 30 evra po transakciji. Koristeći Moneybookers, ovi troškovi su minimalni (par procenata od prenetog iznosa ili manje).

Prenos novca sa svog računa kod Moneybookersa na račun u Srbiji će obaviti Roditelji u Crnom, jednim međunarodnim bankarskim transferom za veći broj pojedinačnih donacija zajedno - i time smanjiti ukupne bankarske troškove.

Šta je potrebno uraditi?

Da biste uplatili novac potrebno je da:

- Otvorite račun kod Moneybookersa
- Registrujete metod plaćanja (npr. platnu karticu)
- Uplatite novac na svoj novootvoreni račun kod Moneybookersa
- Prenesete novac sa svog računa na račun Roditelja u Crnom

U nastavku dokumenta su ova četiri koraka detaljno objašnjena.

Ako već imate račun kod Moneybookersa, možete ga upotrebiti za uplatu priloga i preskočiti odgovarajuće početne korake u ovom uputstvu.

Račun otvoren kod Moneybookers za uplatu priloga akciji Roditelja u Crnom vam ostaje kao mehanizam kojim bezbedno plaćate na velikom broju e-commerce sajtova u svetu.
